Cattleman's Choice Feedyard is an industry leader in feeding GAP, Verified Natural and NHTC cattle. I have fed a lot of western type cattle and Sierra Ranches are one of the top. The cattle gain, convert and grade all in the same package. That's very important when you take out all the Implants and feed additives that conventional feedyards use. That speaks highly of the genetics these cattle carry. The cattle always stay healthy and are very easy to handle.

There's nothing in the cattle business that makes more you money than Good Genetics.

Dale Moore
 Owner/Manager
 Cattleman's Choice Feedyard

NOTE: This set of 54 head of Sierra Hereford Bull sired, Black Baldy Steers, earned a \$210.46 per head premium after grading as follows...
