Commercial Females

Terms: ½ down today the remaining when taken possession.

Pairs:

Lot 300 - Hillcrest Genetics – Steve Clark – 620-330-2109 – Havana, KS – 24 Black and Mottle Faced 1st Calf Pairs –

Steve brings front end pairs every year. These heifers will have calves on their side by Hillcrest Angus Bulls born in January and February. You would look long and hard to find nicer young cows than what Hillcrest brings to the McCabe sale each and every year. These pairs are tested PI negative and the cows have been OC'ed. The pairs are worked and ready for grass!

The first 15 have older calves born in December and there are 10 Black cows and 5 Baldy cows.

The remaining 9 have calves born in February. There are 8 black cows and 1 baldy.

Lot 325 - Pickett Ranch – 620-332-3743 – Longton, KS – 25 Black and Red Baldy 1st Calf Pairs – Greg Pickett has buyers

waiting on these every year he sells some. These are home raised heifers that are sired by McCabe Hereford Bulls and McCabe Angus Bulls and have calves at side sired by McCabe Angus bulls born in January and early February. These are the type of females that are hard to find. There is 1 Red Baldy on these. Heifers are OC'ed.

Lot 350 - Shawn Mills – 620-205-8100 – Moline, KS – 20 Black 1st Calf Pairs – This is a special set of young cows that will

do everything right. These heifers are home raised by Shawn and part of them will have F1 Baldy calves sired by Sensation and the Black calves will be sired by McCabe Angus Bulls. Calves will have been born in March. These pairs will be ready to go anywhere. The cows have been OC'ed and are PI Negative.

Lot 400 - Milner Hay and Cattle – 620-212-2524 – Welda, KS – 60 Black and Black Baldy 1st Calf Pairs – These are really

nice females that he bought out of our sale last year and should make an incredible set of cows. Calved from February 8 through March 10. The calves are AI sired by Connealy Comrade and a son of 6EM3. They are PI tested negative and OC'ed.

Lot 425 - Corwin Farms – 785-893-4528 – Overbrook, Ks - 14 Black and Black Baldy 1st Calf Pairs – Really nice set of

pairs here! These females were purchased from McCabe Genetics as bred heifers. Calves will be born in March and early April with calves sired by McCabe Angus Bulls. Even though they might not be quite calved out by sale day we guarantee live calves and will be ready for pickup later in April. All of them are PI tested negative and heifers are OC'ed.

Lot 450 - JLB Ranch – 316-435-4035 – Fall River, KS - 120 Black 1st Calf Pairs – These South Dakota origin heifers will do it all! 50 of these have March 1 – March 12 calves and 70 have March 12 – March 24 calves. The calves are all sired by Jorgenson bulls. This herd is on a total Zoetis health program and a shot of Multimin at birth. For an additional \$15 per pair the calves and cows will be worked and ready to go to pasture.

Lot 475 & 480 - Newton Farms – 620-636-0276 – Elk City, KS – 14 - 4, 5, 6 Yr Old Black, Black Baldy, and Red Baldy Pairs – Here is a set of females that have made it through the test over the couple of years. This set of home raised cows will really go out and do their job. Calves are born in February and March and are sired by McCabe Genetics Bulls. They will be sorted into groups by color or you can have the option on all of them if you prefer. Cows are PI Negative and OCVed. Calves will PI Negative.

Lot 475 - 11 Pairs are ready for pickup at any time. There are 9 black cows, 2 red baldys, and 1 black baldy.

Lot 480 - 3 Cows that are ready to calve. Cows can be left until they are done calving and are guaranteed to be pairs. There are 2 black cows and 1 red baldy.

Fall Breds:

Lot 500 - Shawn Mills – 620-205-8100 – Moline, KS – 35 F1 Black Baldy Bred Heifers – Here comes the cow power! This set of females will make your mouth water as they continue to grow. This home raised set of heifers put it all together. They are sired by McCabe Hereford bulls and are Aled to Effective to begin calving August 20 for 70 days and cleaned up with McCabe Angus bulls. Heifers are PI negative, pelvic measured, and OCVed.

Lot 550, 560, 565 - Mike & Flint Landrith – 620-423-4444, 785-577-4484 – Barlett, KS – 45 Black Bred Heifers – Here is something special, a set of powerful bred heifers from the Landrith's. These heifers will fit anyone's program. 18 of these heifers are confirmed AI bred to begin calving on July 30 and the rest will finish calving September 28 to McCabe Angus bulls. Heifers have been tested PI negative, pelvic measured, and OCVed.

Lot 550 - 17 Head AI Bred Fall Heifers - 16 Head of Black Heifers and 1 Black Baldy - Buyer has the option on the Baldy.

Lot 560 - 27 head Black Bred Fall Heifers

Lot 565 - 4 Head Smoke Bred Heifers - These would be the Smoke heifers on the 560 Video

Lot 525 - Dale Stewart – 931-260-2181 – Bronson, KS – 43 Black and Black Baldy Bred Heifers, 1 Red Baldy – These heifers are bred to start calving August 20 for 90 days and are bred to front end McCabe bulls. Heifers are ultrasounded and will be grouped for calving dates. These are 1 Iron heifers from the Mark Neville Estate. Mark has bought really good McCabe bulls for the past several years. Heifers have been pelvic measured, and OCVed. 1 Red Baldy the buyer has the option on if they want.

Lot 575 - McCabe Genetics – 620-332-4244, 620-332-4498, 620-636-0545 – Elk City, KS – 25 Black and Black Baldy Bred Heifers – This is a super stout set of heifers that will impress anyone. They were Aled to McCabe Angus bulls and cleaned up with McCabe Genetics Angus Bulls. These heifers are either homerasied or were purchased from our good friend and customer Gary Cole. These heifers are due to calve September 19 for 45 days. Heifers have been tested PI negative, pelvic measured, and OCved.

Lot 580 - 7 Head of Black Bred Heifers calving November 1-30.

Lot 600 - McCabe Genetics – 620-332-4244, 620-332-4498, 620-636-0545 – Elk City, KS – 38 Black 3-6 Yr Old Black Bred Cows – The work is all done here. This is a proven set of cows that will hold up to the toughest conditions. They are bred to McCabe Hereford Bulls and due to start calving September 19 for 60 days. They have been tested PI negative and OCved.

Lot 610 - McCabe Genetics- 5 - 7-10 Yr Old Black Bred Cows - Just the older mates to the Lot 600

Opens:

Lot 625 - Shawn Mills – 620-205-8100 – Moline, KS – 35 F1 Black Baldy Open Heifers – You will look long and hard to find a set of heifers like this. They are a home raised set of F1's that do everything right. Just study the quality. Heifers will weigh 750 to 800 lbs and have been OCved, pelvic measured, and repro tract scored.

Lot 650 and 675 - McCabe Genetics – 620-332-4244, 620-332-4498, 620-636-0545 – Elk City, KS – 135 Black and Black Baldy Open Heifers – These are South Dakota origin heifers as we have done in the past several years and they have worked for buyers from the Flint Hills to the Fescue country east of us. Each set are 1 Iron. They are targeted to weigh 700 to 800 lbs. by sale day. We have a couple of other groups pending so be sure to check the website for updated information. They have been tested PI negative, pelvic measured, repro tract scored, OCved and have their prebreed shots.

Lot 650 - 65 Black and Black Baldy Heifers raised on the Rausch Ranch, Gettysburg, SD

Lot 675 - 60 Black and Black Baldy Heifers raised on the COD Ranch, Bill & Andy Wright, Gettysburg, SD - The lot 675 heifers were wintered on Hay and are a touch lighter than the other Open Heifers. These Heifers are welcome to stay at our place till mid April when they will be weighing 750 to 775.
